

UNICORE Summit 2012 - Call for Contribution

Dresden, Germany, May 30 - 31, 2012

<http://www.unicore.eu/summit/2012>

SCOPE

The UNICORE Summit is a unique opportunity for UNICORE users, developers, administrators, researchers, service providers and managers to meet. Participate to share your experience, present your own developments, present planned developments, learn about the latest UNICORE features and get new ideas for interesting and prosperous collaborations.

The UNICORE Summit 2012 will take place at Dresden University of Technology, Dresden, Germany.

TOPICS OF INTEREST

The main topics of the UNICORE Summit 2012 are:

- Experiences and own developments
- Future developments

Areas of interest include all UNICORE-related work:

- * recent developments in all technological domains
- * experiences from end-users and administrators
- * application integration
- * portal integration
- * interoperability use cases
- * security
- * integration with cloud and virtualization techniques
- * performance evaluation
- * data management
- * new ideas and concepts
- * etc.

SUBMISSION

Authors are invited to submit extended abstracts of one page maximum. Contributions can be of type presentation, demonstration or poster (the type of contribution must be indicated).

Accepted contributions for the proceedings will be either full papers (for presentations, up to 10 pages) or short papers (for demonstrations and posters, up to 5 pages).

Abstracts should be submitted online in PDF format by submitting it to:
<http://openaccess.tu-dresden.de/ocs/index.php/zih/unicore-summit-2012/author/submit>.

PROCEEDINGS

Accepted contributions will be published in the IAS book series of Forschungszentrum Jülich GmbH publishers as an edited book with ISBN number. The book will be published after the UNICORE Summit and each participant will receive a copy.
